

「소비패턴의 전환을 위한 정책수단에 관한 워킹샵」 개최

대한민국 정부(환경부)가 주최하고 한국환경기술개발원(KETRI)이 주관하여 표제워킹샵을 '95. 8. 30(수)부터 9. 1(금)까지 3일간 서울 삼성동소재 인터콘티넨탈 호텔에서 개최할 예정입니다.

소비패턴의 전환은 '92년 개최된 유엔환경개발회의(UNCED) 이후 국제적 관심이 증대되고 있는 「의제 21」의 핵심과제로서 그 동안 노르웨이 정부('94.1, '95.2) 등에서 국제회의를 개최한 바 있으며, 각국의 「의제 21」 이행 상황을 감독·평가하기 위해 설치된 유엔지속개발위원회(UN CSD)에서도 집중적인 논의가 계속되고 있습니다.

우리나라도 지구환경문제의 해결을 위한 국제적 노력에 적극 동참코자, 작년 11월에 「환경기술이전에 관한 국제워킹샵」을 개최한데 이어 금년에도 제3차 유엔지속개발위원회('95.4, 뉴욕)에서 환경부장관이 표제 워킹샵의 서울 개최를 공식 제의한 바 있습니다.

이번 워킹샵에는 제3차 UNCSD의장(H. B. Calvalcanti), UNDP총재(J. G. Speth) 및 OECD환경국장(B. Long)등 주요 인사를 비롯하여, 아시아·태평양 지역국가를 중심으로한 32개 선진·개도국 대표와 DPCSD, UNDP, OECD, UNEP 등 국제기구 및 Consumers International, World Business Council for Sustainable Development 등 민간단체 전문가가 참여하여 지속가능한 소비개념, 이와 관련된 정책수단, 에너지, 도시 및 토지이용부문등에 대한 사례발표와 토론을 통하여 지속가능한 소비패턴의 구축을 위한 정책수단을 개발하고 국제협력 방안을 강구할 예정입니다.

특히 워킹샵 첫째날(8.30)에는 이번 워킹샵에 참석하는 국내·외 전문가와 항상 우리나라의 환경문제 해결을 위해 고심하시는 여러분을 모시고 조출한 환영 리셉션을 개최코자 하오니 부디 참석하시어 자리를 빛내 주시기 바랍니다.

아울러 본 워킹샵의 효율적인 준비를 위하여 참석자 현황을 미리 파악코자 하오니 동봉한 통보서를 '95. 8. 23(수)까지 우리부로 송부하여 주시면 감사하겠습니다.

AUGUST 30, 1995-SEPTEMBER 1, 1995

CHRYSANTHEMUM ROOM

THE HOTEL INTER-CONTINENTAL SEOUL

SEOUL, THE REPUBLIC OF KOREA

hosted by THE GOVERNMENT OF THE REPUBLIC
OF KOREA

in collaboration with THE GOVERNMENT OF AUSTRALIA,
DPCSD, UNDP AND OECD

organized by THE KOREA ENVIRONMENTAL TECHNOLOGY
RESEARCH INSTITUTE

OBJECTIVES

We hope to develop appropriate policy measures for sustainable consumption by scrutinizing the problems caused by unsustainable trends, sharing experiences to help countries establish more effective policies, and encouraging governments, businesses and NGOs to assume the responsibilities for the implementation of policy measures.

Furthermore, we plan to identify specific goals and means of attaining them in areas such as **end-use energy consumption, use of water resources, waste management, and urban/land use planning.**

Ultimately, we wish to recommend policy options to be presented at the fourth session of the CSD to provide a conceptual framework that may expedite the implementation of the international work program previously adopted.

BACKGROUND

In the past decade, environmental challenges have emerged as basic elements of all development strategies. The continuation of unsustainable trends in consumption and production patterns is a major cause of accelerated environmental degradation and the urgency of changing these patterns is undeniable.

Consequently, the global community has codified guidelines for sustainable development, as articulated by Agenda 21. The Commission on Sustainable Development adopted a work program for its future work on changing production and consumption patterns at its third session held in New York, Apr. 11-28, 1995.

There were individual efforts launched to identify similar issues. These include the Symposium on Sustainable Consumption (Oslo, Norway, Jan. 19-20, 1994), the MIT/OECD Experts Seminar on Sustainable Consumption (Cambridge, USA, Dec. 18-20, 1994), the Workshop on Facilities for a Sustainable Household (Zeist, The Netherlands, Jan. 23-25, 1995), and the Oslo Ministerial Round-table Conference on Sustainable Production and Consumption (Oslo, Norway, Feb. 6-10, 1995).

Along with these efforts, the Government of the Republic of Korea had planned to host an international workshop on sustainable consumption focusing on more specific policy areas. The workshop plan was announced by the Minister of the Environment of the Republic of Korea at the High-level Meeting of the third CSD session on Apr. 26, 1995.
