PARTICIPATION

Women's participation in all aspects of society matters.

This is why the most comprehensive of KVINFO's key focus areas is entitled **Increasing Women's Participation in Social, Political, and Economic life.**

The programme aims to overcome the closely interconnected barriers, which prevent women from fully participating in society.

Examples of KVINFO's partnerships on women's participation include:

- Empowerment through Design – a partnership about design, marketing, and business development between collectives of women artisans in Morocco and Tunisia and the Design School at the Royal Danish Academy of Fine Arts.
- Training and networking for female parliamentarians and candidates standing for local elections in Tunisia and Egypt.
- A series of workshops on inclusion and diversity for human resource leaders in a number of Jordan's largest corporations, including interaction with Danish counterparts.
