

Dear sisters in Christ;

②

I am very happy to bring you a warmest greetings from our group of church women in Korea.

Our Country is used to be called by "The Land of morning calm" which meant quiet, peaceful and beautiful.

But I am honestly speaking we do not ^{feel} this way any more after all we as peace loving group of people have been in struggle for years and years since '60th.

I also would like to bring you our gratitude. As some of you may know that we Christians in Germany and Korea ^{have been} ~~are~~ Partner Christians through EHS since the early 70th. ~~when~~

In spite of that our partnership ^{yours} have not been long as ~~the ones~~ like with India, Middle East or South Africa which have been in Partners over a hundred years, I feel like ^{ours} ~~we~~ are ^{more intimate and older.} ~~all ones.~~

Because our relationship has started at ²
the precise time when our people, specially
those Christians who cared the peace and
the justice, ~~and under~~ in the midst of the
hardships of the political and economical ^{which}
instabilities. ^{But our common experiences of}
^{the war and}
^{uprooting}

Many of Korean Christians can never
forget your prayer and support which were
extended to them in those days their
family members in prison.

~~I had been in Germany for over three weeks~~
~~till I came here and~~

During my stay in Germany, I attended
in three gatherings such as the women's
Conference in Baden - Baden, EMS Consultation
in Bad Boll and EMS Synod in Neustadt.
It was a great privilege for me and those
experiences had been very fruitful.

And our common experiences living in the divided
countries and your life under distaharships
once before, would make us to have a
mutual understanding.

I have been in your country almost ③
three weeks now and I attended the
Women's Conference in Baden-Baden,
EMS Consultation in Bad Boll and EMS
Synod which was closed yesterday in
Neustadt. It was a great privilege for
me and the attending those meetings
had been very fruitful.

In the women's Conference, around
20 women from all EMS Partner churches
in six regions, met together and
shared our common concerns under
the theme of "Moving forward together".
Under this heading we concentrated
on the vital issues of Peace and justice
as well as the Community of men and
women in the church.

(1)

Dear Brothers and Sisters in Christ;
I am very happy to bring you a warmest
greetings from our churches in Korea.
This country is used to be called by
"The Land of Morning Calm".

~~But~~ it seems that this country would be
no more a land of morning calm.

Since you are hearing about this country
so much and so often, you would not
feel that way.

Christians in Germany and Korea are
Partner churches since the early 70th
~~through~~ EMB. It tells us that compare
with other Partners like in Middle East,
India or Africa which have been in
Partners for over a hundreds years,
the relationship between us, ^{seems} has just
started.

But I feel like we are old Partners because ^②
our Partnership has been started at the
Praise time when our Christians were
struggling lonely under the unwanted
situation.

Because of the political and economical
instabilities, our people were suffered
and many of the Christians those who
stood for the weak ones as their
voice or helper were put into the prison.

In that particular reason, the Koinonia
between us is a very special one.

We can never forget your prayer and
support of 12 years during the difficult
time of ours.

I would like to bring also of our
gratitudes to you.

③

In the women's Conference, around 20 women from the E.O.S Partner churches in five regions, met together and shared ^{the} our experiences and find out the common concerns under the theme of "Moving forward together". Under this heading we concentrated on the vital issues of peace and justice as well as the community of men and women in the Church.

One of our topic was how the women as the discipleship of Christ endeavour for peace and justice. I was expected to prepare one of the presentations to the conference.
