We want to know what the role of the International Support group which the Korean Committee proposed is because the roles of the present International Advisory Committee (IAC) are not only to advise legal matters and selection of the Tribunal members, but also to support, for example for fund raising, according to the decision made at Seoul meeting last February.

We want to remind you that it was decided in Tokyo meeting in June 1981 year that the Korean Council would coordinate victimized countries. We would like to ask you to contact with other five countries to promote the preparatory process for the Tribunal. Especially, China and Indonesia need to be kept more informed about the preparatory process. It is very important to share information and watched by all participating countries.

Since you proposed that the secretariat for the Tribunal should be in the Korean Council, FAWW-NET Japan and ASHINET we expect these organizations work closely together, even if each organization has different task. It is equally important to know what's going on other countries in order to cooperate more for the preparation.

It is very encouraging that This year will hold next WTRC meeting and the public symposium. We are ready to help them and hope the Korean Council also support them in many ways. We are eager to know the exact dates of the Tokyo meeting soon.

3 The arrangements on the Tribunal

It was agreed at the last WTRC meeting in February that a draft constitution should be drafted by each country to be submitted and finalized at the 1st session in June. At the Home, there WTRC members of Prof. Mr. Michael Sajo and Yoon Chul and asked advice and comments from two legal scholars (Prof. van Doren and Prof. Oryshon) and from members of IAC. Also, on 11th March, FAWW-NET Japan at the 1st IAC meeting. We also received comments from other IAC members including Taro Nagasaki and Marianne Heide-Lucas.

At the recent Seoul meeting, it was proposed both Korea and Japan should make another draft and Michael Sajo will find comments from public persons. We are still waiting for her comments.
