

5.III.98

Dear Young Sook,

From Kang Duk Hee I received your kind and friendly gift of this very good brand of Sang Wo Cha with Chai and Yumacho to put into. This is very good for my health and general condition indeed. Thank you for that gift and for remembering me.

On TV we observed the inauguration of Kim Dae Young. In the background I recognised v. Weizsäcker - And doves were flying all over the sky. With that came memories of the vision and fighting and suffering you all had for many decades - that now has a chance to materialize. How glad your dear husband would have been to see this happen, for which he gave his whole life and health in a vision that now seems to become reality.

My thoughts are with you and all the ones that now will be engaged

in frontier work again on an entirely different level and in a very difficult economic situation. - You will now be building a new society, environment and unity for your beloved Country and people.

My thoughts and best wishes are especially with you - dear sister Young-Sook - for health, strength, success and also joy in this process, for now and always.

Please give my love and warm greetings also to your son and to Gyong Jin and her daughters and to whomever will remember me.

Yours with warm memories  
and regards

Dorothea
