To: Mr Li See-chung
President
Korean Bar Federation

Dear Mr Li,

I arrived here in Geneva yesterday and started lobbying. Japan is also lobbying hard to stop the UN to work for the "comfort women" victims.

Prof Shin Heisoo of the Korean Council for the Women Drafted for Sexual Slavery by Japan has just arrived and joined me.

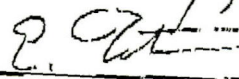

We will speak on Tuesday 9th August.

Could you send me your statements which supports the UN Working Group on Contemporary Forms of Slavery? (before we speak.)

Please, take a look of the statements, which I got when I visited Japan briefly in July, as a sample.

The Japanese Federation of Bar Association's discussion is ~~now~~ steadily progressing. In autumn, we'll have a rather thorough proposals (including the PCA matter) from the JFBA.

With best wishes.

Yours Sincerely,

Etsuro Totsumi
