

PALU as The Bay City

- Assisting the formulation of Sustainable Palu Bay City Master Plan
- Supporting the strengthening of community-based garbage banks (building on the works of the on-going SimbioCity Program)
- Connecting with relevant resources, such as the P2KH green open space infrastructure

BANDA ACEH as The Islamic Tourism City

- Assisting the formulation of a strategic plan for Sustainable Islamic Tourism City
- Connecting with potential resources to upgrade existing slum areas to develop green open spaces
- Supporting local capacity building in clean water treatment & waste management

KEMITRAAN HABITAT

*Partnership for
Sustainable Urban Development*

KEMITRAAN HABITAT¹ is a not-for-profit multi-stakeholder organization aims at promoting sustainable urban development in Indonesia through partnerships of various stakeholders to complement each other's strengths and weaknesses.

KEMITRAAN HABITAT acts as catalyst in fostering cooperation, building (local) capacity, promoting exchanges of information, knowledge & experiences as well as advocating new & innovative approaches in creating more livable & sustainable urban environment.

In the medium term, KEMITRAAN HABITAT focuses on promoting new collaborative approaches to accelerate the achievement of the 100-0-100 national program (100% access to clean water, 0% slum, 100% access to appropriate sanitation).

¹ "Kemitraan" means "partnership", but because it is a name, we prefer to keep it as it is.

MATARAM as The Heritage City

- Assisting the formulation of Heritage City Grand Design for Ampenan Old City as part of the effort to attain World Heritage City status
- Connecting with potential resources to support coastal slum upgrading, particularly the fishing villages along the Old Port
- Supporting the empowerment of local community groups such as Ampenan Old City Community & Mataram Green Community

SDGs - Sustainable Development Goals 2030

- G.1** End poverty in all its forms everywhere
- G.6** Secure water and sanitation for all for a sustainable world
- G.11** Build inclusive, safe and sustainable cities and human settlements
- G.13** Promote actions at all levels to address climate changes
- G.17** Strengthen and enhance the means of implementation and global partnership for sustainable development

KEMITRAAN HABITAT supported for achieving goals of SDGs 2030 in the sustainable urban and settlement development, both at national and local level, through 4 interconnecting programs:

Publish information and HS product through local UDMA
Facilitate knowledge management in advisory cities, particularly about data information & human resources

Develop teams and UDMA activities based on information commitment of Ministries, such as housing, spatial planning, regional development & human resources potential
Facilitate policy advocacy to local government

Urban Development & Management Advisory

UDMA

UDMA is helping local stakeholders in utilizing their potentials in managing & developing cities under the partnership approach.

UDMA is a partner for the regions, and at the same time linking the regions with central government, private sectors, universities and community, as well as across the sectors.

BOGOR

as
City in the Garden

- Assisting the formulation of the Roadmap to Bogor Green City
- Establishing cooperation with the local Green Community Forum as well as the Bogor Institute of Agriculture
- Selecting priority areas, which may include developing a green corridor in Heulang Park
- Supporting campaigns for green open space as well as community-based sanitation & waste management

- Assisting the formulation of Roadmap & Grand Design of Malang without Slum
- Developing cooperation with the Brawijaya University
- Selecting priority areas & identifying potential external supports for the upgrading of the priority slum areas (including Kelurahan Kotalama)
- Supporting the empowerment of the local communities to actively participate

BANJARMASIN

as
The River Friendly City

- Assisting the formulation of Banjarmasin Master Plan & Roadmap to become a River Friendly City
- Developing cooperation with the Lambung Mangkurat University
- Supporting community empowerment through MELINGAI (Masyarakat Peduli Sungai -- River Care Community Group)
- Helping to improve local capacity in sanitation & waste management (include infrastructure)

MALANG

as
The Zero Slum City
