Dearest Jungim,

I feel very much ashamed because of my loooong silence. It's really too bad!
But I honestly hope you will be able to accept my apology and explanation why I was not able to write earlier.

I had to move to another place very suddenly. Though it was a very difficult decision I had to make up my mind within a few days. And then there were only a few weeks left to get ready for the moving. Organizing, packing, consultations with various people concerned, painting and repairing the new place, cleaning....., all turned out to take lots of strength and energy. On top I was "off-line" (no internet connection) for several weeks. The company concerned took lots of time before they were ready to install the new internet connection.

However, by now things seem to get cleared one after the other. I still have lots of stuff which is not yet in the place it should be. But some of it can wait for some more time. The good thing about me moving to another place: I do not need to climb 85 stairs (steps) every day. Back and forth, often several times a day, was quite a big job. Nevertheless I enjoyed that to some extent because I believed it was good for my health. During springtime I all of sudden developed knee-arthritis. From then on the stairs were not enjoyable at all. But I did not consider to look for another flat. I just didn't want to move out of my place. I was horrified when I thought of all the trouble and concerns. Medical treatment helped to some extent. And then, totally unexpected, a friend of mine informed me that in the house she is living in - on the same floor - the flat will become vacant very soon. But because other people already were interested to get the place I should make a decision within a few days. After seeing the flat I became more and more convinced that I should make use of the opportunity and decided to sign the contract. The fact that there is a friend near by for mutual help and assistance if necessary and the other fact that there are only a few steps to climb reaching my flat are the most important reasons for the decision. Another very enjoyable thing: I have an extra room for guests who want to stay overnight! Therefore: You are welcome with all my heart to visit me some time!! I would be so happy!!!

As I loved to live in the middle of Stuttgart city I now have to get used to travel a bit longer to reach the center of the city. About 30 minutes with public transportation. Not really far if I think of Seoul. My new address is as follows:

Dorothea Schweizer
Wilhelmstrasse 59
D-70734 FELLBACH
Germany

Telefon Number is the same as before: (0)711-6571275.

Well, this is the explanation for my long silence. But my thoughts were and are so often with you!
Exactly one year ago I experienced such a wonderful time together with you and in your beautiful home. I remember every detail of it and really do not want to miss or forget this precious experience. I

wonder so much how you are doing these days!? Is your health alright? What about your wrist?? Did you do some travelling during the summer? How about your daughters and their families?? Little Caitlin will grow bigger and bigger in the meantime.....!

I was so deeply shocked when I heard of President Kim Dae-Jung's passing away. I really mourn his death and feel deeply sorry for Mrs Lee Hee-Ho. The only thing I could do was to write to her personally by normal mail. I hope the letter reached her safely.

I vividly remember our visit with her! She was so much alive then and I appreciated so much her open and warm welcome and the time and thoughts she shared with us. By then there was no sign of Mr. Kim's passing away so soon.

Before I close I would like to mention that I think of you and all friends and people who get together on 19th of October to remember Ahn Byung- Mu Paksanim. I imagine that you were very deeply involved in the preparations of the commemoration service. But I am also deeply convinced that you did a very good job. I will be with you in my thoughts and prayers in the days to come.

Jungim, take care of yourself!

I send you my love and very thankful and joyful thoughts and my very best wishes,
Dorothea. P.S.: If ever there is a chance to pass on greetings to all of the "families" and even Mrs. Lee Hee-Ho I will be very happy!
