Subject: tribunal time schedule (draft)

Importance: High

Dear friends,

It was great that we could get together in Taipei to have productive discussions on our Tribunal.

This is a proposal for the Tribunal's time schedule as a result of discussion between Tina and Yayori in Tokyo today based on the Taipei-meeting discussion.

There are small differences as listed below from those we agreed at the Taipei meeting. Please give us your comments on the following points.

1. Which should come first, Taiwan or China? Japan proposed Taiwan first because it is in the same category as that of Korea in terms of legal status of those days.
2. Michiko Nakahara proposed to present a video testimony of a Malaysian "comfort woman" and perpetrators.
3. The draft schedule included an expert's testimony about Japanese military men's mentality and Patti wrote it on the board at the Taipei meeting. However, we did not discuss about it. If you agree, we can recommend Mayako Inoue, an experienced counselor, who made a research on it. So far we have only one female expert (Ms McDougall); we had better have more women. The expert on Trauma had better be a woman.
4. It's better to move McDonald's testimony from Day 1 to Day 3, because she may arrive late, due to her schedule; and her testimony on gender and racism should sum up all previous presentation from gender view point.
5. Due to extra-time of thirty minutes, judges may make any comments to close three day tribunal.

We want to get your response by Tuesday (Sept 26) at latest, because we have to send out invitation and registration form with the schedule and logistic information to the whole world as soon as possible.

Thank you.
