

Presentation Draft for the BWG Coffee Morning

Good Morning Ladies!

It is an honor to be here with warm minded ladies. I would like to start my presentation with expressing my heartfelt thanks for the constant concern and support of the British Women's Group for the people in need in our society. I know that the British Women's Group has made tremendous contributions for the better welfare support. I am personally very impressed by your activities living in a foreign country. I am sure that your good will encourages more people to be aware of the meaning of sharing.

Korea Foundation for Women was established in 1999 by 124 leading woman NGOs in Korea with the hope to develop diverse programs and giving campaign in order to support for the women in need and for various activities of various woman NGOs. In Korea it is very hard to raise funds with the title of women. Very recently whole society is beginning to broaden its interest towards giving and sharing. There have established some more fundraising NGOs. However it is still very hard to persuade people to see the importance and necessity of supporting women. Under the same hard circumstance, women are doubly suffered from their difficulties. For instance, in the case of the unemployed breadwinner of the family, the problem of the male breadwinner is the situation of unemployment. But that of the female one is much more than that. They are unemployed and, at the same time, still have to take care of their children, housework, and other family members. In the case of female disabled, they are anytime targeted for the sexual victim. The worst of the worst case is the women in prostitution. They are the victims of the present social structure however, most of the people do not want to help them or sympathize them. They are treated as criminals and alienated from the social concern. Here I should like to say thanks again to you all. It was great that the British Women's Group members were willing to help these alienated poor women. I hope that your brave and sincere help will be a good model for other organizations and corporations to open up their eyes towards real problems of our society.

Before I extend few words

my great pleasure you this morning

Representative from foundation

Since I am here to deliver KFW's gratitude for that what you have done for our needy group

It is the first and only civil foundation for women in our country.

which means every woman's organization is difficulty in fundraising

often

and minds

so that they are easily

as the endowment
in our foundation,
Korea Foundation for Women has a very short history. This year is going to our third year since the KFW was established. We still have to run a long path to make proper implementation of our mission. Not likely other fundraising organizations, all donations, except the donor-designated fund, are reserved. We only use the interest of the funds to use. At the moment, about 720 million Won is reserved. The target goal of the reservation is ten billion Won. We hope and plan to build up a building in which one-stop social welfare service for women can take place and stabilize the financial source. In 2000, we supported the low-income female breadwinners' family, the old ladies, who were sexually abused during the Japanese colonial period, and unemployed women projects with total ₩32,800,000 (thirty two million eight hundred thousand Won). In 2001, we supported women in urban poor area, woman disabled, the victims of the domestic violence, sexual abuse, and sexual industry, foreign woman workers, and the first general allocation with total amount of ₩319,510,000 (three hundred nineteen million five hundred ten thousand Won).
we only use the interest of the funds for supporting the women's welfare.

I was told by Mrs. Angela Kang, our General Secretary, I know that we have already asked for ten percentage of your donation for establishing the BWG Fund under the KFW. We try to establish individual Fund under the KFW if donors want. The fund will be reserved forever and the mission and the thought of the donor will be remembered, too. The interest of the individual fund will be used for the KFW General Allocation. The BWG Fund will be a good model to encourage other Koreans to think of establishing own Fund. Hope you will take a deep consideration on this proposal.
Our Foundation

Dear ladies, please do accept my repeated thanks. I have to do because the recipients of your gift want to say millions times of thanks to your support. Not only for the support but also for your very sincere, kind, and warm minds, too. I am very happy to meet you all again and to have a good opportunity to speak more about Korea Foundation for Women.

Considerations

In Korea, many people say that the autumn is the best season of the year. I guess, it is very same in many other countries. Because it is

the time to harvest our sweats and efforts during ^{the year} hot summer and spring.
I hope and wish that you all will have successful and satisfied harvest in
this autumn. I also wish you good health, happy life in Korea, and special
blessing of God.

I appreciate very much
Thank you for your attention and showing love *Thank you*
