- 국제인권법으로 본 정신대

일본제국주의의 무서운 전쟁범죄의 희생자 - 정신대 (종군위안부).
그녀들의 치욕과 오랜 고통의 세월은 아직도 계속되고 있다. 잔학한
“인류에 대한 범죄”를 저지른 자들에 대한 공정한 심판은 내려져야
한다. 박원순변호사는 국제인권법과 나찌스전쟁범죄자들에 대한
유럽에서의 재판의 실례에 기초하여 정신대하수인을 우리나라 법정에
세울 것을 주장한다.

Humanitarian Perspective on Chung-Shin-Dae

The issue of Korean "Comfort Women (the involuntary Military Prostitutes)," during the era of Japanese Imperialism, remains unfolded. The long suffering and utter dehumanization of the victims persist to haunt all Korean women, and here, the realization must be made that the issue does not to limit to that of gender.

The acts committed by those responsible for institutionalizing "Comfort Women" within the Japanese military base must be recognized as "Crime for all humanity" and thus be brought out to be tried as we see just. International Human Rights Law specialist, Attorney Park Won Soon, demands the war criminals to be justly tried according to the precedences for the Nazi War Criminals after the World War II, based on the International Human Rights Law.
